

# Surface Mount Electronics Assembly for Terrified Beginners

## Electronic kitten - the tricky bits

**D1-D5 direction!**

RGB LED orientation

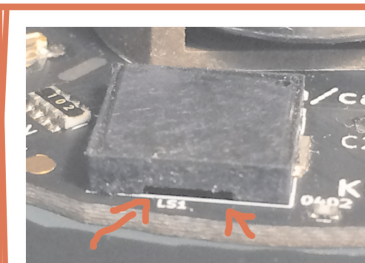

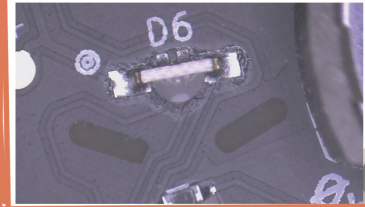

Tiny bits!  
2x 0201  
1x 01005

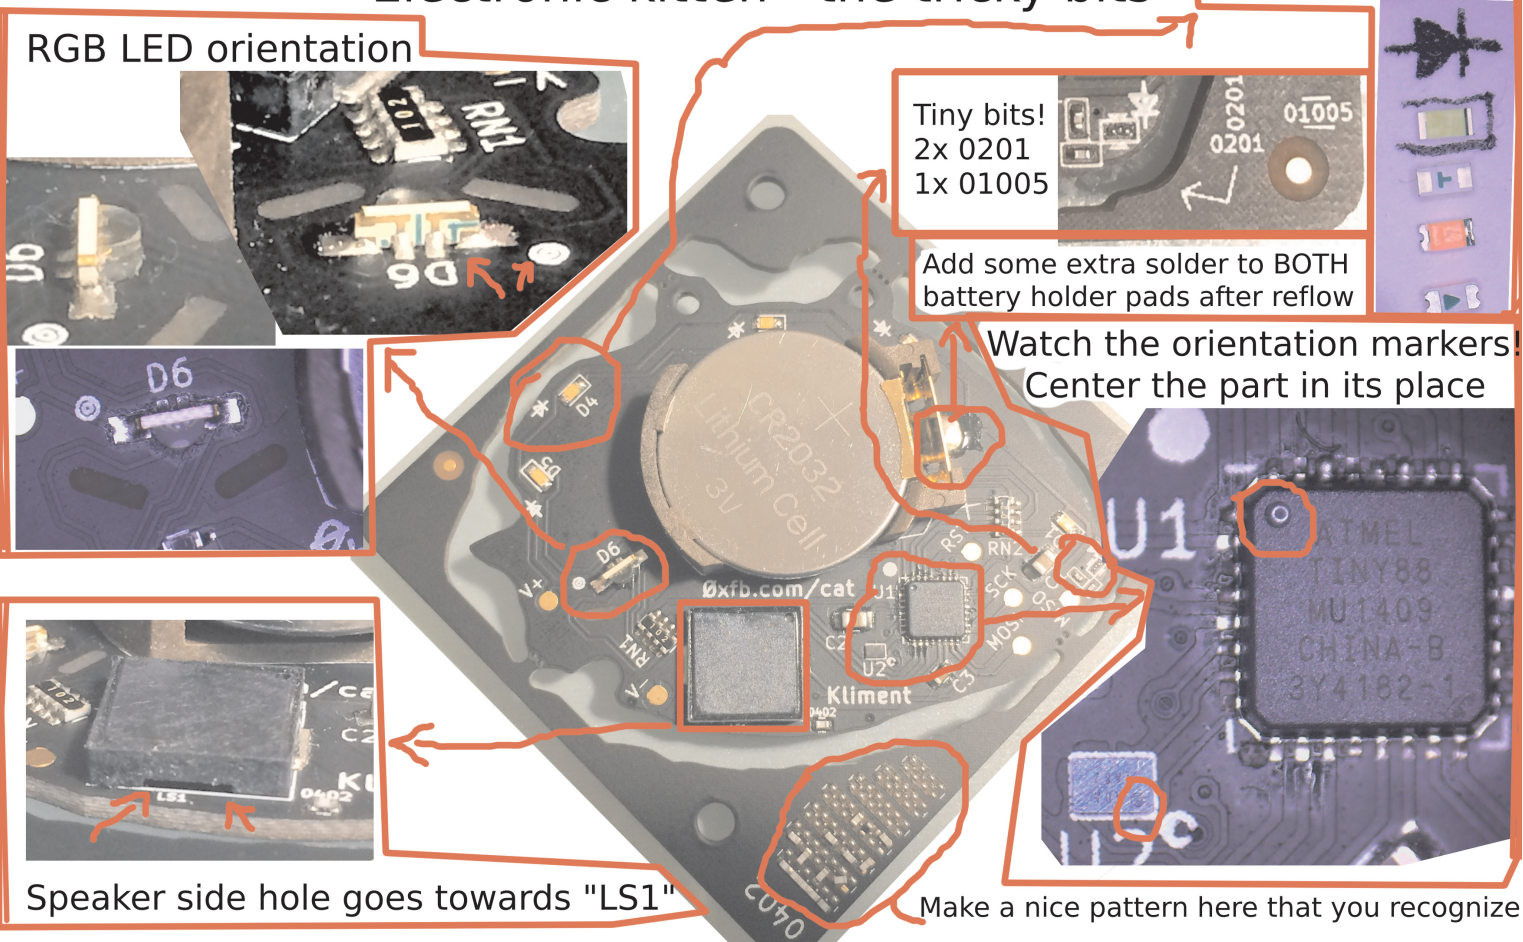

Add some extra solder to BOTH battery holder pads after reflow

Watch the orientation markers!  
Center the part in its place

Speaker side hole goes towards "LS1"

Make a nice pattern here that you recognize
